Searching for the best of simplicity:
...and it it were your child?

but...

...it's NOT always so straightforward as here...

...and if these were YOUR children?

Begin with the end in mind

LESS IS MORE
**Take home message**

- Adequate diagnosis
- Comprehensive treatment planning
- Meticulous bracket placement

**BEGIN WITH THE END IN MIND**

**The KISS principle**

*Keep It Simple, Stupid!*

**Simple ≠ Easy**

---

*Einstein's quote: Everything should be made as simple as possible, but not simpler.*
Simplicity is the ultimate sophistication

The ultimate goal:

a healthy natural dentition which can adapt to lifelong changes

...and happy smiles...

as if they were our children!
